### The machine can be completed by digital or flexographic web printing units

## A clever envelope / pocket machine.

Product examples, seed sachets, optical envelopes, small packaging:

## Machine specifications:

- Unwinding section for paper roll height max 1500 mm, width max 300 mm
- Web alignment system BST
- First Web Tension Mitsubishi servomotor control system
- Cross Scoring section with Mitsubishi servomotor control system
- Longitudinal scoring system
- Form and window cutting section with Mitsubishi servomotor control system
- Speed Window material section with 2 Mitsubishi servomotor control system
- Second Web tension system with Mitsubishi servomotor control system
- Side flap folding section
- Separating cutting section with Mitsubishi servomotor control system
- Bottom flap folding section with Mitsubishi servomotor control system
- Seal flap folding section with Mitsubishi servomotor control system
- PLC, program
- Pre-Print registration system
- Speed production 600 – 800 p/min.
- Delivery table
- 1 (One) Format size set. Format size to be define by client
- Operator touchscreen panel for machine management

## Advantages:

- Compact production machine
- Speed production 400 – 800 p/min depending on product sizes
- Machine adapted to your production needs
- Precise production process
- Start from Pre-Print rolls
- Constant web tension
- Servo driven machine with 9 Mitsubishi servo motors.
- Servo controlled machine
- PLC
- HMI screen panel control
- Easy to change formats
- Wide product range, new opportunities
- Speed window section
- Blank reel, pre-print reel,
- Optional Digital and flexographic web printing

Installation and start up machine:

- Installation of the machine at the customer is included in the price
- Start up and first production run at the client is included in the price
- 1 Week training of 1 machine operator is included in the price.

Delivery schedule:

To be define

Warranty: 1 Year warranty for Technomatic parts and labour.

Price machine: **Total 295.000 € + VAT**

Not included in the total price:

- Transport of the Technomatic Clever machine from Technomatic to the customer.
- Transport, Hotel and Food cost for 2 Technomatic engineers during their stay at the customer for the installation of the machine and training of the operator.

Kind regards,

Francis Guffens
